## WEBSITE DISCLAIMER

Last Updated: May 2026

This Website Disclaimer applies to <https://jgittech.com> and related JGittech LLC website pages, forms, scheduling links, payment links, service descriptions, and online content. It is intended for public website use and should be read together with JGittech's Terms of Use, Privacy Policy, Cookie Policy, and any applicable service agreement or customer authorization.

### 1. Website Information Disclaimer

The information provided by JGittech LLC on <https://jgittech.com> and related website pages is for general informational purposes only. It is provided to explain JGittech services, service boundaries, scheduling options, customer communication methods, and general technology topics.

JGittech makes reasonable efforts to keep website information accurate and current, but does not guarantee that all website content is complete, current, error-free, or suitable for every situation. Technology, software, cybersecurity, vendor offerings, carrier availability, pricing, and service requirements can change.

### 2. No Professional Advice

Website content is not legal, tax, payroll, insurance, medical, regulatory, cybersecurity-compliance, or professional compliance advice. Customers should consult the appropriate qualified professional for those matters.

Information on the Site does not determine whether a customer is compliant with HIPAA, GLBA, CMMC, PCI, tax rules, employment rules, insurance requirements, or any other legal, regulatory, or industry standard.

### 3. Service Summary Disclaimer

Service descriptions on the Site are summaries only. Paid services, appointments, repairs, remote support, subscriptions, managed services, backup services, cybersecurity support, website-development work, telecom coordination, and business connectivity coordination are governed by the applicable JGittech service agreement, authorization form, addendum, plan sheet, invoice terms, or written agreement.

If there is a conflict between website content and a signed or accepted service document, the signed or accepted service document controls.

### 4. Best-Effort Technology Services

JGittech provides IT and technology services on a best-effort basis. Technology work can involve unknown hardware conditions, software conflicts, account restrictions, vendor limitations, unstable networks, failed components, corrupted files, malware, user error, incomplete backups, or third-party service issues.

JGittech does not guarantee complete resolution, compatibility, data recovery, malware removal, speed improvement, uninterrupted operation, uptime, or any specific customer result unless a separate written agreement expressly states otherwise.

### 5. Backup, Data, and Access Disclaimer

Customers are responsible for maintaining their own backups unless a backup service is expressly included in writing. JGittech may recommend, create, or verify backups when reasonably possible, but no backup process can eliminate all risk of loss.

Do not submit passwords, full payment credentials, Social Security numbers, private keys, recovery codes, protected health information, or other highly sensitive information through ordinary website forms unless JGittech provides an

approved secure method. Customers should enter passwords personally whenever possible.

## **6. Cybersecurity and Compliance Boundary**

JGittech may provide general cybersecurity-support services such as endpoint protection support, patch coordination, Microsoft 365 support, MFA support, account security support, backup support, and security-hygiene recommendations.

JGittech does not warrant that services make a customer compliant with HIPAA, GLBA, CMMC, PCI, or any other framework. The customer remains responsible for determining and maintaining its own legal, regulatory, insurance, contractual, and industry compliance obligations. JGittech does not act as a HIPAA Business Associate unless a separate written agreement and Business Associate Agreement are fully executed.

## **7. Third-Party Links, Vendors, and Services**

The Site may contain links to, references to, or integrations with third-party websites, tools, payment processors, scheduling platforms, carriers, manufacturers, vendors, embedded services, advertising platforms, or other outside resources.

JGittech is not responsible for third-party content, terms, privacy practices, security, pricing, availability, uptime, service credits, approvals, installations, product performance, billing decisions, or provider-side infrastructure. Use of third-party services may be governed by separate third-party terms and policies.

## **8. Telecom, Internet, and Business Connectivity Disclaimer**

JGittech may assist with business internet, phone, TV, 5G connectivity, backup internet, or related customer-side setup and coordination. Carrier availability, pricing, contracts, installation dates, construction, service credits, outages, equipment, billing, and network performance are controlled by the applicable carrier or provider.

JGittech may help identify whether an issue appears to be customer-side or provider-side, but JGittech is not the carrier, ISP, or network provider unless a separate written document says otherwise.

## **9. Affiliate, Referral, and Commission Disclosure**

Some links, referrals, vendor relationships, or service recommendations on the Site or in JGittech communications may involve affiliate compensation, referral compensation, reseller margins, or commissions to JGittech. This may include technology products, software, cybersecurity tools, backup tools, internet services, telecom services, or related business services.

Compensation does not guarantee that a product, vendor, carrier, or service is right for every customer. Customers should review vendor terms, pricing, privacy policies, service limits, and suitability before purchasing. JGittech does not control third-party vendor decisions or carrier-side performance.

## **10. Testimonials, Reviews, and Results**

The Site may display testimonials, reviews, examples, comments, or customer feedback. These reflect individual experiences and do not guarantee that other customers will have the same results.

Testimonials or reviews may be corrected for grammar, formatting, clarity, or length, but should not be read as a guarantee of outcome. If any reviewer receives compensation, discount, credit, or other material benefit, JGittech will disclose that where required by law.

## **11. Trademarks, Product Names, and Copyrighted Material**

All third-party product names, company names, trademarks, service marks, logos, and brands are the property of their respective owners. References to third-party names are for identification, compatibility, explanation, resale, support, or service-description purposes only.

Use of a third-party name does not imply endorsement, sponsorship, partnership, certification, or approval unless expressly stated in writing. Any copyrighted or trademarked material referenced on the Site remains subject to the rights of its owner.

## **12. No Electrical, Construction, or Licensed Trade Work**

JGittech is an IT and technology-services company. JGittech is not a licensed electrical contractor and does not perform electrical work requiring a licensed electrician. JGittech does not cut walls, ceilings, or building materials as part of standard service.

Customer-side cabling, router, Wi-Fi, computer, network, software, and device work is separate from provider-side infrastructure, building wiring obligations, electrical work, and licensed trade work.

## **13. Disclaimer of Warranties**

The Site and website content are provided "as is" and "as available." To the maximum extent permitted by law, JGittech disclaims all warranties related to the Site, including warranties of accuracy, availability, security, merchantability, fitness for a particular purpose, non-infringement, uninterrupted access, and error-free operation.

JGittech does not guarantee that the Site will be secure, uninterrupted, current, free from harmful components, or available at all times.

## **14. Limitation of Liability**

To the maximum extent permitted by law, JGittech LLC is not liable for indirect, incidental, consequential, special, exemplary, or punitive damages arising from or related to use of the Site, reliance on website content, third-party links, embedded services, advertising technologies, or third-party providers.

Paid services are governed by the applicable service agreement, invoice terms, authorization form, addendum, plan sheet, or written agreement. Nothing in this Disclaimer limits rights or remedies that cannot legally be limited.

## **15. Updates**

JGittech may update this Disclaimer at any time. The Last Updated date identifies the current version. Continued use of the Site after updates means you accept the updated Disclaimer.

## **16. Contact Information**

## **17. Superseding Effect**

This Disclaimer replaces and supersedes prior website disclaimer language dated before this version. Service agreements, signed documents, invoices, authorization forms, plan sheets, and written addenda may contain additional or controlling terms for paid services.
